

BAKERSFIELD CALIFORNIA

Bakersfield: Hub of the West

United States Cold Storage—Bakersfield is an ultra modern low temperature storage and distribution center. We are proud to offer customized services and programs for any type of refrigerated or frozen products.

Bakersfield is a transportation hub centrally located in California, with sixty percent of California's population to the south. This affords strong logistic capabilities via California's main highways.

Please contact us for additional service information. We can customize a storage and distribution program designed to meet your specific needs.

Strategically Located

The Bakersfield Plant is located at the crossroads of State Hwy. 99, Interstate 5 and State Hwy 58—California's principal north-south arteries and major access for east bound traffic to the Southwest, Midwest and East Coast.
