**UNITED STATES COLD STORAGE EXPANDING MEDLEY, FL, SITE**

**CAMDEN, NJ** –United States Cold Storage (USCS) expects by June 2019 to complete a Phase 2 addition at its public refrigerated warehouse in Medley, FL.

The expansion will add 2.6 million cubic feet of refrigerated storage space for 11,806 pallet positions. Upon completion the operation will have totals of 6.8 million cubic feet of storage with 35,906 racked, variable height pallet locations—representing a 50% increase in cubic capacity.

“Our expansion greatly supports many of our existing customers’ growth as well as the acquisition of new customers. The south Florida facility serves imports/exports from Latin America where we have experienced double-digit growth in this sector for several years now,” says George Cruz, Senior Vice President, Southern Region. “This site is strategically located and nearly equal distance from the Port of Miami and Port Everglades in Ft. Lauderdale, FL. This makes it an ideal location to service our customers.”

Cruz adds, “We have had a presence in this market for more than 50 years and have established business relationships dating back that long. The new expansion will allow USCS to continue the growth we have enjoyed during the past several decades. Likewise, we plan to simultaneously enhance services to our customers with 11 additional dock doors and a 50% increase in refrigerated dock space.”

USCS Medley is located just 22 minutes from Miami and 30 minutes from Ft. Lauderdale. This USDA- and FDA-certified site offers import/export services, repacking and drayage services for the Port of Miami and Port of Everglades. It is equipped to handle products of all types at temperatures ranging from -20°F to +55°F.

Medley also offers its USCS’ COLDshare multi-vendor consolidation program, in addition to shuttle services, managed logistics, network analysis services, customized reporting and analytics and brokerage services.

Cruz concludes, “We are very pleased to continue expanding our footprint in an important market, which is south Florida. The nearby ports in Miami and Ft. Lauderdale are the trade gateways to the Caribbean, Central and South America and this is a very vital part of our company.”

**About United States Cold Storage**

United States Cold Storage, Inc. (USCS), Camden, NJ, is a premier provider of public refrigerated

warehousing (PRW) and related logistics services throughout the USA. With roots dating back to 1899, USCS has long served a diverse customer base with requirements ranging from primary storage to fully integrated third-party logistics. The company offers more than 273 million cubic feet of temperature controlled warehouse and distribution space in 38 facilities located in 13 states including California, Delaware, Florida, Georgia, Illinois, Indiana, Nebraska, North Carolina, Pennsylvania, Tennessee, Texas, Utah and Virginia. USCS is the third largest PRW Logistics provider in North America. It is a subsidiary of the U.K.'s John Swire & Sons Ltd.
