UNITED STATES COLD STORAGE GROWING AGAIN IN DALLAS, TEXAS

VOORHEES, NJ – United States Cold Storage (USCS) recently completed a 5.3 million-cubic-foot, Phase Three addition at its public refrigerated warehouse (PRW) in Dallas, TX.

Just built in 2013, USCS Dallas is located at 2225 N. Cockrell Hill Rd. and works with nearby USCS warehouses in Fort Worth and Arlington, TX, to serve the Dallas Metroplex region. For its part, USCS Dallas is a strategic location to efficiently serve key markets throughout Texas, Oklahoma and Louisiana.

The USCS Dallas facility now offers 14.9 million cubic feet (517,566 square feet) of cold storage with room for 56,809 pallets stored at temperatures ranging from -20F to +40F. This high-volume truck and rail distribution center has 67 dock doors and eight rail doors (serviced by Union Pacific). The operation also offers multi-vendor consolidation, blast freezing, and a wide range of local cartage services.

“The Dallas Metroplex area has been a growing market for USCS. After building the Phase One and Phase Two sections at our new Dallas warehouse, we’ve now completed this Phase Three addition just three years later,” notes George Cruz, Senior Vice President, Southern Region. “Throughout 2016, our Metroplex warehouses have been at capacity or near capacity. Here, I want to acknowledge our managers and team members. Customers have complimented our ‘Best in Cold’ service levels and our truck turnaround times are beating industry standards.”

USCS Dallas has earned certifications from the US Department of Agriculture, Food & Drug Administration and Global Food Safety Initiatives (GFSI).

About United States Cold Storage

United States Cold Storage, Inc. (USCS), Voorhees, N.J., is a premier provider of public refrigerated warehousing (PRW) and related logistics services throughout the USA. With roots dating back to 1899, USCS has long served a diverse customer base with requirements ranging from primary storage to fully integrated third-party logistics. The company offers more than 273 million cubic feet of temperature controlled warehouse and distribution space in 39 facilities located in 13 states including California, Delaware, Florida, Georgia, Illinois, Indiana, Nebraska, North Carolina, Pennsylvania, Tennessee, Texas, Utah and Virginia. USCS is the third largest PRW Logistics provider in North America. It is a subsidiary of the U.K.’s John Swire & Sons Ltd.
