**UNITED STATES COLD STORAGE EXPANDS MEDLEY, FL, WAREHOUSE**

*Phase II addition grows USCS' presence in Miami, South Florida markets.*

CAMDEN, NJ – Late July saw United States Cold Storage (USCS) complete a Phase II addition to its operation in Medley, FL, serving the Miami and South Florida markets.

The expansion brings another 1.7 million cubic feet of -10F freezer storage, another 12,030 pallet positions and 12 additional refrigerated dock doors. With that, USCS Medley now boasts 6.1 million cubic feet of storage with 35,975 pallet positions and as many as 30 refrigerated dock doors. The operation's convertible rooms offer storage temperatures ranging from -20F to +55F.

“USCS has had a presence in the Miami marketplace for more than 40 years and we continue to support our customers by expanding our footprint in this very important geographic area,” says George Cruz, USCS Senior Vice President-Southern Region. “Our relationship with our customers in the import/export arena with Latin America continues to grow. The bilingual staff at our Miami operation supports ease of customer relations and service. This incremental space will allow us to better service the growing needs of our existing customer base and help to offer our services to new customers.”

Built in 2004, USCS Medley is just 22 minutes north of Miami and 30 minutes from Fort Lauderdale. Likewise, it is just one hour away from Palm Beach, FL, and less than two hours away from Naples, FL, on the state's western Gulf Coast. The facility offers a multi-vendor consolidation program, shuttle and brokerage services, USDA and FDA inspection, managed logistics, network analysis services and customized reporting and analytics.

Also excited about the expansion is Dorian Frank, USCS Medley General Manager.

“We've seen a growing demand for refrigerated space in the South Florida market. There's been an increase in imports and distribution has been steadily increasing during each of the past few years,” he says. “We had reached our maximum occupancy capacity and as one of the industry's leading refrigerated storage providers, we want to stay competitive in our respective markets. We always will continue to offer solutions to our existing and prospective new accounts.”

**About United States Cold Storage**

United States Cold Storage, Inc. (USCS), Camden, NJ, is a premier provider of public refrigerated warehousing (PRW) and related logistics services throughout the USA. With roots dating back to 1899, USCS has long served a diverse customer base with requirements ranging from primary storage to fully integrated third-party logistics. The company offers more than 355 million cubic feet of temperature controlled warehouse and distribution space in 42 facilities located in 13 states including California, Delaware, Florida, Georgia, Illinois, Indiana, Nebraska, North Carolina, Pennsylvania, Tennessee, Texas, Utah and Virginia. USCS is the third largest PRW Logistics provider in North America. It is a subsidiary of the U.K.'s John Swire & Sons Ltd.
